Biology in Action

For A-level and IB students

Biology in Action returns to London in spectacular style in autumn 2020! Five interactive and engaging sessions delivered by renowned scientists and communicators will inspire and motivate your students. A special session with hints and tips for revision and examination success will provide students with the tools to succeed. These are unmissable and tremendously popular programmes.

"I don't remember a better student conference - we thought every speaker was excellent - just the right level, all animated, engaging and well prepared.."

- Life changing
- A surgeon's tale
- The epigenetics revolution
- In conversation with...

University of Warwick
Gibbet Hill Rd
Coventry, CV4 7AL

Biology in ACTION

Life changing / Helen Pilcher

Ever since our species first evolved, we have been tinkering with nature and altering the course of evolution. Now we share our planet with genetically modified wolves, pizzly bears and cloned polo ponies. Join Helen as she explores the legacy [...]

Dr Helen Pilcher is a tea-drinking, biscuit-nibbling science and comedy writer and author of 'Bring Back the King: the Science of De-extinction'.

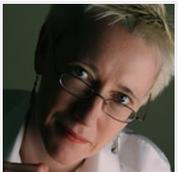

The epigenetics revolution / Nessa Carey

You are a complex mixture of the effects of your genes, your environment and also of randomness. Epigenetics explains how the environment and your genes communicate with each other, setting up patterns of gene expression that can change your future.

Nessa Carey works for a major pharmaceutical company, is a Visiting Professor at Imperial College and author of the popular science book "The Epigenetics Revolution".

A surgeon's tale / Tim Underwood

Join Tim to discover how genomics is allowing early detection of oesophageal cancer, uncovering the biology behind this disease and enabling life-saving surgery and treatment to be targeted to the individual.

Tim is a surgeon with a special interest in oesophageal cancer and minimally invasive surgical techniques.

In conversation with... / Greg Foot

Greg Foot is a Science Journalist on BBC Radio 4 ('The Best Thing Since Sliced Bread?'), a successful Podcaster ('Surprisingly Brilliant') & YouTuber ('BBC Earth', 'Let's Go Live' etc) & [...]
