GCSE Science in Action

Join us for the ultimate science enrichment day for KS4 students in March 2022! Five interactive and highly engaging sessions will inspire and challenge your students. There will be demonstrations and audience participation, and students will discover the wonder of science in our specially designed programme, delivered by the leading lights in the field. A session on examination success will equip students with the tools to succeed. This is Science in Action!

Watch this space for speaker announcements coming soon!

in ACTION

Cracking the code - the genetics of superheroes /

Simon Watt Ready, Steady, Science

Comic books are filled with mutants; heroes and villains whose special abilities are genetic in their origin. But what are real mutants like, and could we one day use genetics to make us superhuman?

Simon is a biologist, writer, science communicator and TV presenter. He is perhaps best known as a presenter on the BAFTA winning documentary series Inside Nature's Giants.

Dangerous Equations /

Marty Jopson Science presenter

Join Marty Jopson as he places himself in grave personal danger for your entertainment. Will his steely nerve and a set of equations be enough to keep him from harm?
(Photo Credit: Steve Cross)

Marty has a PhD in plant biology, is a science TV presenter, live show performer, writer, strange prop builder and all round Science Bloke.
