Medicine in Action ONLINE

LIVE STREAMED EVENT

We are delighted to announce a new online event for aspiring medics on July 3rd 2020. Medicine in Action is a specially designed programme where students will hear from medics from a wide range of specialities and at various stages in their careers. We will discover the life of a doctor, uncover the incredible scientific and technological breakthroughs enabling transformation of healthcare and discuss the ethical and societal issues that the next generation of medics will encounter.

- How to stop a heart attack: What do cardiologists actually do?
- Born to Die? A case study of socio-economics in child health
- So you are thinking of applying to study medicine?
- From DNA to Human: a medical student's journey
- A surgeon's tale

Online

Medicine in ACTION online

How to stop a heart attack: What do cardiologists actually do? / [Rohin Francis](#)

Find out why cardiology is the greatest specialty in medicine, why cardiologists have the best job in the hospital and how they're also so modest and humble. A case-based insight into caring for the heart.

Rohin Francis is a doctor specialising in cardiology and a university researcher based at UCL. He has a YouTube channel combining his love of medicine with bad puns.

From DNA to Human: a medical student's journey / [Charlotte Mykura](#)

Together we will journey from your life as simple DNA to your life as a living breathing human. Nearly all of us are touched by modern medicine - how does this shape our journey and where will it take us [...]

Dr. Charlotte Mykura is a scientist, comedian and graduate medical student. After studying Natural Sciences at the University of Cambridge she went on to undertake her PhD in Genetics at [...]

Born to Die? A case study of socio-economics in child health / [Lalith Wijedoru](#)

What makes us healthy? Good health matters to individuals, governments, and international organisations. But we don't all have the same opportunities to live healthy lives. Discover how economic and social conditions influence the health status of children both at home [...]

Lalith is a Consultant in Paediatric Emergency Medicine (A&E) at Alder Hey Children's Hospital in Liverpool. He is a lecturer at the Liverpool School of Tropical Medicine, and former researcher [...]

A surgeon's tale / [Tim Underwood](#)

Join us for a truly inspirational journey through the work of surgeon and oncologist Tim Underwood. We will discover his route to and through medicine, a day in the life of a surgeon and the cutting edge research allowing better [...]

Tim is a surgeon with a special interest in oesophageal cancer and minimally invasive surgical techniques.

So you are thinking of applying to study medicine? / [Medic Mentor](#)

The Medic Mentor team will be on hand in the lunch break to guide you through what you can do, right now, that will help you get where you want to be - medical school!

Medic Mentor is a social enterprise founded by doctors to help aspiring students get into medical, dentistry or veterinary school. We give students opportunities to present at conferences, earn certificates, awards and even become [...]
